

# Vision measurement with insight.

## It's Quick Vision Series, from Mitutoyo

From short-run part inspections to high-volume repetitive part measurements using single or multi-sensors, Mitutoyo has your vision measurement solution. That's because the Quick Vision line of measuring systems and sensors is the industry's most comprehensive, accurate and reliable.

And Quick Vision is from Mitutoyo—the global leader in metrology. Bringing together world-class products, engineering services and global best practice means Mitutoyo has the resources—and *insights*—to optimally integrate vision measurement with your process for improved productivity, and lower costs.

See the full range of Quick Vision solutions for yourself. Visit your nearest Mitutoyo M<sup>3</sup> Solution Center, or visit [www.mitutoyo.com](http://www.mitutoyo.com) to learn more.
