CMM SOFTWARE UPGRADE

CMM Software

MCOSMOS 5.4 Software Just Got Smarter

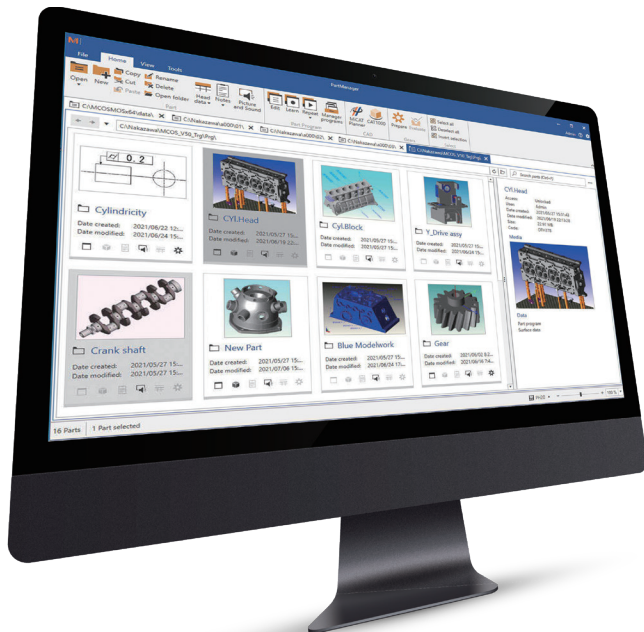

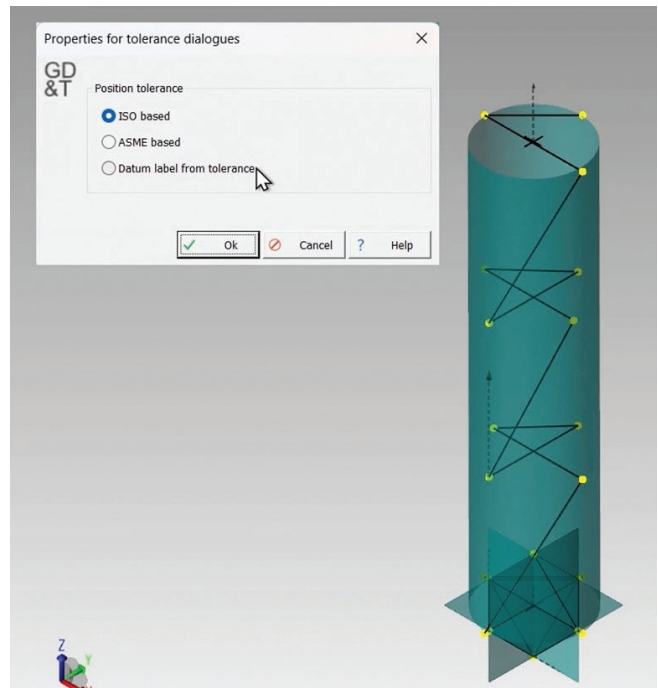

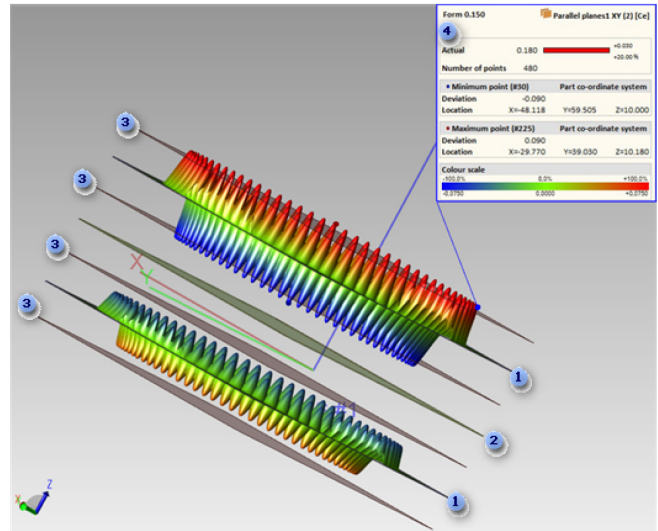

Upgrade your CMM system with powerful new features designed to streamline workflows, increase accuracy, and modernize your inspection process.

Smarter System Configuration

- **Windows 11 Support** – Full compatibility since v5.0.
- **Active CMM Mode Switch** – Toggle online/offline without starting CMM System Manager.
- **MiSTAR Model Options** – Now supports 555, 575, and 595.
- **Probe Angle Sorting** – Smarter A/B sorting for PH10 heads.
- **Auto Camera Switching** – Changes view based on stored probe data.
- **Automation** – Mitutoyo Connect allows user to define input/output and set states.

Calculations and Visualizations

- **Parallel Planes Element** – New angle/width/flatness tool with 2D/3D view.
- **Line Tolerance Options** – More ways to display line tolerances.
- **Contour Gap Fitting** – Handles gaps in contours.
- **ISO/ASME Position Tolerancing** – Enhanced standards support.
- **Cone Evaluation Options** – Choose least squares or min zone.
