Mitutoyo Releases New Display Unit for Linear Scales

Intuitive display unit offers multiple features.

AURORA, IL – September 17, 2015 –Mitutoyo America Corporation announces the KA-200 Counter, a multiple feature, intuitive display unit for linear scales. The latest version of the KA-200 Counter has been updated with many new features including absolute and incremental modes, non-linear error compensation, function lock, adjustable LED intensity, multiplier function and an option to output directly to spreadsheets using a USB card.

A large, crisp display allows the operator to read the numbers at a glance. In addition, an improved sub-display makes it easy to navigate through parameters. Switch between absolute and incremental modes with the push of a button. Each mode offers 10 presets. A function lock holds the settings and prevents accidental changes of settings. A calculator function allows operators to calculate angles, distances and other measurements.

Mitutoyo Corporation is the world's largest provider of measurement and inspection solutions offering the most complete selection of machines, sensors, systems and services with a line encompassing CMM (Coordinate Measuring Machines), vision, form and finish measuring machines, as well as precision tools & instruments, and metrology data management software. Mitutoyo's nationwide network of Metrology Centers and support operations provides application, calibration, service, repair and educational programs to ensure that our 6,500+ metrology products will deliver measurement solutions for our customers throughout their lifetime.
