

Rapid Performance 5 Axis CMM Probing Workshop

Wednesday, May 9, 2018

Mitutoyo America Corporation
1000 SW 34th Street
Renton, Washington 98057

No one can go head-to-head with us when it comes to high throughput CMM probing.

We are proud to invite you to an exclusive workshop featuring the latest in Coordinate Measuring.

- ▶ Case studies
- ▶ Additive manufacturing and 3D printing presentation from Renishaw
- ▶ 5 axis inspection technology
- ▶ PH20 vs. PH10 speed and throughput comparison
- ▶ Model based programming
- ▶ CMM Part Programming-One Click from a CAD File (MiCAT Planner)

See the latest coordinate measuring technology in action! The format of the workshop is as follows:

Session 1: 9am - 12pm

Welcome + Coffee
Start Workshop
Question & Answer

Lunch/Refreshments: 12pm - 1pm

Session 2: 1pm - 4pm
