U-WAVE Bluetooth®

The Global Standard for Wireless Connection

Bluetooth®
U-WAVE Bluetooth®
U-WAVE-TMB/TCB

The new U-Wave Bluetooth transmitter features:

• Now utilizes the popular Bluetooth 4.2 Low Energy Wireless Technology.
• This new Bluetooth version of U-Wave allows a simple connection to smartphones, tablets and Bluetooth enabled Laptops and PC’s.
• The same low profile and ergonomic fit benefits of the U-Wave Fit.
• A buzzer type and IP67 type with dustproof and waterproof specifications are available.
• Up to 7 units can be connected to 1 Bluetooth enabled PC without a receiver.
• New U-WavePak BLE for Android, iOS and Windows available at no cost.
Benefits of using U-Wave Bluetooth Wireless Data Collection System

No receiver required
Measurement data can be sent directly to a PC with Bluetooth®, Tablet or smartphone without a receiver.

Cost reduction
Attach to the Digimatic output of an existing Mitutoyo instrument to keep the system costs down.

Improved Efficiency
Input measurement data with one button. Eliminate the time and errors of handwritten recording.

Centralized data
Electronic Collection enables data to be stored in one location allowing preventive management of defects.

Easy data storage
Data can easily be sent to a smartphone or tablet allowing data to be collected in any environment.

*U-WAVE-TMB / TCB can only be used in countries that have obtained wireless certification, including the country of purchase. For use in countries other than the country of purchase, please contact our nearest sales office. It is not compatible with the existing product U-WAVE fit because the communication specification is different.*
